

Connect your business to drive productivity and profits

Supercharge your growing business with an all-in-one solution

What's driving a need for new ERP systems?

35%

Lack of ERP software leads to redundant data (35%), unaligned business systems (33%), and the inability to track processes in real time (28%). ([Panorama Consulting](#))

82%

82% of small to midsize businesses fail because of poor cash flow management. ([Entrepreneur](#))

\$200k

Businesses with fewer than 100 employees are the most susceptible to fraud, with a median loss of \$200,000. ([ACEE](#))

Current systems are disconnected and can't handle the complexity of a growing business

Run your business with a single solution that streamlines business processes and helps employees work faster and smarter

360°

Deploy one solution to manage your financials, sales, services, and operations.

Connect apps like payroll, banking apps, CRM systems, e-commerce, or customer APIs.

Create quotes, orders, and invoices right from Outlook, and get tasks done on the go with mobile apps.

Incomplete data and tedious reporting create blind spots and lead to poor decisions

Create a single source of truth by seamlessly sharing data across every line of business

360°

Centralize your data from sales, accounting, purchasing, inventory, and customer interactions for an end-to-end view of your business.

Create customized reports and view compelling dashboards with Microsoft Power BI.

Lack of controls, workflows, and unsecure data causes business risks

Trust in a solution that helps maintain compliance, secures data, and delivers a 99.9% uptime service level agreement

360°

Handle, store, and transmit data securely across your systems.

Protect information from unauthorized access with automatic Microsoft datacenter encryption.

Control access to personal data and implement audit trails to ensure security and accountability.
